FORBEI

POWERTEC®-i Compact Range

The **POWERTEC® i COMPACTS RANGE** is built on the latest Lincoln inverter platform, ensuring optimal **MIG/MAG** and **MMA** welding performance with excellent power and cost efficiency.

The range consists of: 250A, 320A, 380A and 450A power sources with a choice of either the **STANDARD** panel (i250C & i320C) or the **ADVANCED** panel (i250C, i320C, i380C & i450C), that meet most customers' needs and covers a wide range of welding applications.

The Plug & Play water cooler COOLARC[®] 26 is available for **POWERTEC[®] i380C & i450C ADVANCED**.

PREMIUM ARC PERFORMANCE

• **ARC INITIATION** – Repeatable arc ignition with outstanding arc characteristics.

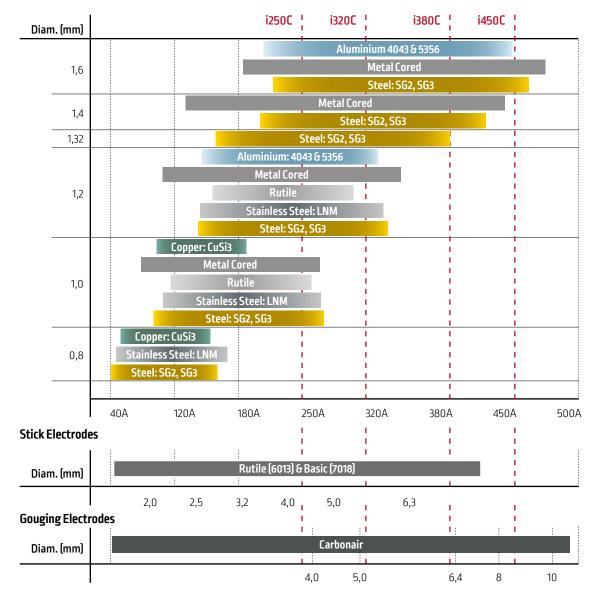

MIG/MAG Wire

- **ARC STABILITY** Excellent arc stability, ensuring a smooth droplet transfer with reduced spatter.
- **ARC DYNAMICS** Rapid parameter adjustment allowing variability under welding conditions.

Processes

- GMAW
- FCAW-G
- FCAW-S
- SMAW
- CAG (only i450C)

Materials

- Steel
- Stainless steel
- Low alloy steel
- \cdot Aluminium
- \cdot MIG brazing

Applications

- General fabrication
- Construction site
- Maintenance and repair
- Light industrial

STATE OF THE ART TECHNOLOGY IN WIRE FEEDING

Professional wire feeding system – robust and precise

- 4 individually driven rolls for extremely stable wire feeding of various wire types
- Aluminum housing for a long service life
- Big roll diameter (37 mm) for optimal wire feeding
- Simple, tool-free roll change
- Factory-fitted with rolls for 1,0 mm and 1,2 mm steel and stainless steel

Individually adjustable contact pressure for the front and rear roll pair

Adjustable set-up for aluminium, steel, stainless steel, braze, flux cored wire

V-groove for stainless steel, steel

V-groove, knurled for flux cored wire

U-groove for

aluminium

Color-coded for wire diameter differentiation

Wire feeder pressure set-up

BUILT FOR DEMANDING INDUSTRIAL CONDITIONS

High duty cycle 420A/100% (i450C)

- High production efficiency
- Digital arc control
- True HEAVY DUTY

Inverter engine technology – ECO Friendly

- Lower energy consumption
- Automatic power-saving modes (standby/shutdown function)
- Generator ready

Lincoln Electric Industrial design – ready to use anywhere

- Safety class IP23, potted PCBs and no structural plastics
- 3 Year full parts and labour warranty

Easy maintenance and servicing

Easy access to internal components Software update via laptop or USB (Advanced version)

Intelligent F.A.N. (Fan As Needed)

Cooling tunnel design

INNOVATIVE, INTUITIVE USER INTERFACE – REDUCED TIME FOR TRAINING

Simple navigation also when using welding gloves

Innovative and easy communication

- Two controls, one button for easy navigation
- Icon language for key commands
- Easy process and settings selection
- ARCFX[™] joint visualization
- Work point in material thickness (mm) / WFS / A
- Locking function / Limits / Memories / Jobs
- Interface available in languages: English, German, French, Polish, Finnish, Spanish, Italian, Russian, Dutch, Romanian, Slovakian, Hungarian, Czech, Turkish, Portuguese

More functions & features

AUTO-SETTINGS Preset parameters to increase productivity.

SPEAKER

Product operation (adjusting the encoders or pressing the button) and errors signaled by a sound.

·↔

USB CONNECTIVITY

Easy software update & diagnostics, weld log for quality monitoring.

CLOCK & CALENDAR

Simple welding quality monitoring as weld log data recording on USB.

STANDARD USER INTERFACE – BASIC SETTINGS

Welding Process & Shielding Gas Selection

- Welding characteristics optimized in terms of welding process (GMAW/FCAW or SMAW) selection and shielding gas type for the best dynamics and minimal spatter
- Simple and quick selection by pressing the button
- LEDs showing the selected process

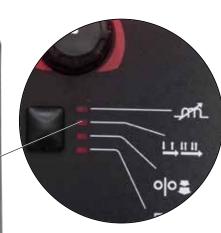

Easy access to the most commonly used welding parameters:

- Arc dynamics (inductance effect from soft to hard)
- Torch trigger mode 2-step / 4-step
- Wire Feed Speed Run-in function
- Burn-back time

CUSTOMER ASSISTANCE POLICY

The business of The Lincoln Electric Company® is manufacturing and selling high quality welding equipment, consumables, and cutting equipment. Our challenge is to meet the needs of our customers and to exceed their expectations. On occasion, purchasers may ask Lincoln Electric for information or advice about their use of our products. Our employees respond to enquiries to the best of their ability based on information provided to them by the customers and the knowledge they may have concerning the application. Our employees, however, are not in a position to verify the information provided or to evaluate the engineering requirements for the particular weldment. Accordingly, Lincoln Electric does not warrant or guarantee or assume any liability with respect to such information or advice. Moreover, the provision of such information or advice does not create, expand, or alter any warranty on our products. Any express or implied warranty that might arise from the information or advice, including any implied warranty of merchantability or any customers' particular purpose is specifically disclaimed.

Lincoln Electric is a responsive manufacturer, but the selection and use of specific products sold by Lincoln Electric is solely within the control of, and remains the sole responsibility of the customer. Many variables beyond the control of Lincoln Electric affect the results obtained in applying these types of fabrication methods and service requirements.

Subject to Change – This information is accurate to the best of our knowledge at the time of printing. Please refer to www.lincolnelectric.eu for any updated information.
